Introduction

Delivery Partners who have been identified to deliver NOS products using public funding are appointed on behalf of the Devolved Governments (DGs), which includes activity on behalf of the Welsh Ministers.

Delivery Partners delivering NOS products using public funding are obliged to comply with the Welsh Language Standards which set out the Welsh Government's responsibilities in providing bilingual services and ensuring that the Welsh Language is treated no less favourably than the English Language.

Delivery Partners are asked to comply, where practical, with these Standards. In order to assist delivery partners to meet this obligation, the NOS Governance Group has commissioned the development of a pack of bilingual documentation which they can use when consulting with their stakeholders in Wales.

The Pack

The pack supports the Welsh Government document *Standards and Frameworks Delivery 2016/17 – Compliance with the Welsh Language Standards*; see pp 3-4, 5-7.

The pack of bilingual documentation comprises text in English and Welsh for e-mails and letters when making first contact with stakeholders in Wales, invitation to consultation events, working groups and steering group meetings, reminder and confirmation letters/e-mails, invitations to participate in online surveys, typical survey questions, newsletter articles/flyer announcing NOS reviews and inviting participation in those reviews, together with examples of temporary signs and useful words and phrases in Welsh which can be used at consultation meetings.

Acknowledgements

Some of the items included in the pack are adapted from examples provided by delivery partners (in particular SEMTA, EU Skills, CreativeSkillset, Lantra, People 1st, SkillsActive, Skills for Health and Summit Skills), and the Welsh Government.

The project consultant wishes to thank delivery partners and Welsh Government officials for their guidance and support in preparing this pack.

Review of National Occupational Standards (NOS) and NVQ Qualification Structures

Background

(INSERT ORGANISATION) are leading a UK wide review of the following National Occupational Standards (NOS) and NVQ qualification structures:

(INSERT LIST OF NOS)

The current suites of NOS and qualifications were developed in partnership with employers and other appropriate organisations across the UK. NOS set out the skills, knowledge and understanding required by employers to undertake a particular task or job role to a nationally recognised level of competence, helping formalise training requirements for employers and employees across the UK. They also form the basis of vocational qualifications including those used in Apprenticeship Frameworks. As part of our philosophy of continuous improvement (INSERT ORGANISATION) are now requesting feedback from relevant stakeholders to ascertain whether the current NOS and NVQs are still fit for purpose, and if not, what changes are required?

The key areas that the review will focus on:

- Are the current occupational pathways (job roles) still relevant and current in the NVQ structures?
- If not what changes are required? Such as the addition of more optional units?
- Are there any missing NOS that should be developed and be included in the NVQs?
- Is the content of the NOS technically correct?
- Is there anything missing in the scope of the NOS and /or knowledge statements?
- Is there anything that should not be in the NOS e.g. redundant procedures/processes/equipment?
- Is it clear what must be completed in order to achieve the NOS?
- Can the outcomes specified in the NOS be achieved in the workplace?

Also

- Is there demand for the NOS to be translated into Welsh?

Review Timescales

The projects begin in (INSERT DATE) and are scheduled to complete by (INSERT DATE), including a UK wide employer and stakeholder consultation.

How to get involved?

If you would like to take part in the review of the standards please don't hesitate to contact (INSERT NAME & E-MAIL ADDRESS).

Eitem/Item 14 - Invitation to review revised NOS Drafts

Dear.....

Over the past six months we have been seeking feedback on the National Occupational Standards (NOS) for (INSERT NOS SUITE/OCC. AREA). We have had some excellent and varied input to the process and have prepared the revised drafts (INSERT APPROPRIATE WEB LINK) of the NOS for verification consultation. Due to the volume of standards in the suite we have split them into sub-sections on our website (INSERT APPROPRIATE WEB LINK), each section having a summary of the key changes. To conclude this review we require the sign off from employers on the final changes to ensure they remain in line with industry needs.

I'd be grateful if you could review the NOS hosted on the website. (INSERT APPROPRIATE WEB LINK). I've attached a sign off form which you can use to note you are content with the changes and indeed if you have any further comment/changes to incorporate into the final standards.

Should you have specific points to raise or an area you would like to discuss in more detail please contact us - (INSERT E-MAIL ADDRESS) and we will arrange for a follow up call / visit as appropriate.

Kind regards
